★★★★★ **Shut up and take my money!**

This carrier is life-changing. It is affordable, super cute, super comfortable for both of us, and it evenly distributes my pet's weight better than any other carrier/sling I've tried. The small, zippered pouch in the front is perfect for carrying a roll of poo-bags and treats. I ordered a Large for my 11-pound toy poodle and it's an excellent fit.

My fur-baby loves it when we put him in this. He likes seeing things at a higher view ' We like to take him with us when we go hiking and this is perfect when his little legs get tired. The Quality of the fabric is great. And the Comfort of the straps are perfect! And the added little zipper pouch is perfect for his treats. Great find!

★★★★★ **perfect carrier for the spoiled and adventurist animal.**

I bought this for a mini weiner dog i watch, it is awesome!!! You can tell the dog was not that thrilled at first but now he has no problem being harnessed. My arms arent tired carrying him all the time now. I love how the sides unzip so i can fit his tail and hind legs in then zip up and put his front paws in, then do the velcro on the sides and he never budges and he just chills on our walks. I never have a problem with the shoulder straps slipping ever like other brands. i did have to have someone from behind adjust the straps for me the first time and now i am all set. I guess if i put him on my back the first time then i could do the adjustment alone. I like the zippered/velcro pouch to keep doggie bags and/or doggie snacks. this dog is spoiled and loves being carried around and this carrier is the ticket.
