

Stationary Hydraulic Scissor Lift Table with Customized Design and Hydraulic Driven

Our Product Introduction

for more products please visit us on manometerthermometer.com

Basic Information

- Certification: GS, CE, ISO 9001

Product Specification

- Model NO.: M3-020180-D22H
- Moves: Stationary
- Driven Type: Hydraulic
- Running Mode: Stationary
- Lifting Height: 3900mm
- Lifting Time: 50s
- Transport Package: Wooden Pallet And Steel Pallet, Wooden Case
- Specification: 1700X1400mm
- Trademark: Marco
- Origin: China
- HS Code: 84289090
- Supply Ability: 1000
- Customization: Available
- Warranty: 12 Months

Product Description

Product Description

High lift table is designed with multiple set of vertically mounted scissors to achieve higher stroke with shorter platform length. Usually installed in space is limited, lifting height is higher.

Most high lift table are used for Goods Elevator, Pallet tracker, disable elevator. Considering the safety and stability on structure, Marco high lift table has Max. 4 layers as 4H on model description.

Product Parameters

Model No.	M3-020180-D22H	Capacity	2000kg
Platform size	1700X1400mm	Base Frame	1500x1400mm
Min. Height	500mm	Lifting Height	1800mm
Model Type	stationary	Lift Time	/
Color	Grey/green/ blue/others	Product name	refer to product
Specifications	Customizable	Application	material handling
Power Voltage	380V 50Hz	Control Voltage	24V DC
Delivery Time	1 month	Package	exported case
Trademark	Marco	HS Code	84289090
Orgin	Made In China	Production Capacity	100/month
Certificate	ISO9001, CE, ISO3834, Design standard		EN1570-1-2011

Company Profile

We are the experts in safe and reliable vertical positioning, with over 80 years' experience in designing and manufacturing rugged, high-performance lift tables. As a company focusing on quality and technology, Marco solutions have been successfully applied to warehousing logistics, automotive manufacturing, air transportation, chemical, food, beverage and other industries.

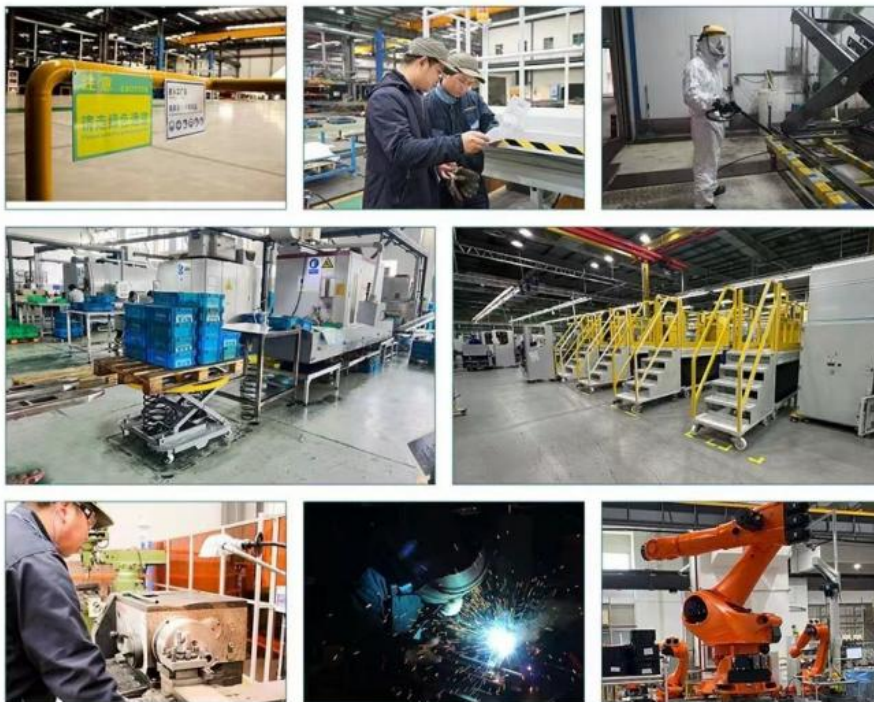

Marco Lift (Ningbo) Co., Ltd as part of SIGI works closely Vertical Positioning Group (VPG) in Sweden to support our Customers in China and the rest of the Asia-Pacific region for Marco lift tables.

Our Design Center is located in Shanghai , China , whilst our Sales Office in in Ningbo and Manufacturing is located in Wuxi.

With more than 12 years in China and Asia, our team of design engineers can offer CE conformity products as we design products collaboratively with our Swedish Engineers.

We pride ourselves as the leading brand in the region, recognized for robust designs, outstanding quality and durability and strong after-sales service support and our products are safe and simple to operate.
